

ILLINOIS ENVIRONMENTAL PROTECTION AGENCY

MEMORANDUM

DATE: September 23, 1983

TO: Walter Franke

I.D. 119 115 AAY

FROM: Jeff Benbenek

SIC 5171

SUBJECT: Facility Name: Amoco Distribution Center

Location Address: 335 South Old St. Louis, Wood River, IL 62095

Mailing Address: P.O. Box 182, Wood River, IL 62095

Person Contacted & Title: Dick Sumner

Owner/Operator Amoco Oil Company, Chicago, IL 60601

Date & Basis of Investigation: September 6, 1983 - In work plan

☒ Potential 100 T/Y ☒ TAS Update ☐ Other (Explain)

Emissions (List Source & Calculations, actual & allowable, lb/hr., T/Y):

No TAS changes.

Disposition: ☒ Form 177 ☐ TAS Update ☐ Warning Letter☐ Thank You Letter ☐ No violations observed ☐ T.B.T.

The plant is primarily engaged in the wholesaling of petroleum products.

The vapor recovery system was in operation at the bulk terminal during the visit. Vapor recovery hoses appeared to be in very good condition. All external floating roof tanks are to be in compliance by the end of the year with the new RACT II Regulations. Secondary seals is the control equipment which has been and will be utilized. Representatives of the facility and I discussed the fact that barge loading and unloading (Operating Permit #7302 0080) should be part of this plant's operation and not the main plant. The company agreed to send a letter to the Permit Section to rectify this situation.

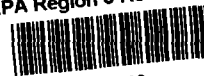

The time of the plant visit was from 3:30 - 4:00 p.m.
